

Aurigny Air Services

A, B1 or B2 Licensed Aircraft Engineer

Department: Engineering & Maintenance

Location: Guernsey, Channel Islands

Reports To: Head of Maintenance

Employment Type: Full-Time, Permanent

Shift Pattern: 4 on, 4 off rotating day shifts, including weekends and public holidays

Salary: Competitive, based on experience and license type and type ratings

Company Overview

Aurigny Air Services is the flag carrier airline of Guernsey, providing vital connectivity across the Channel Islands and to destinations in the UK and Europe. With a fleet of ATR 72-600s we are committed to safety, reliability, and delivering exceptional customer service. As one of the longest-serving regional airlines in Europe, Aurigny offers a dynamic and collaborative environment where aviation professionals can thrive.

Role Purpose

Aurigny is seeking dedicated and experienced **A, B1 or B2 Licensed Aircraft Engineers** to join our Engineering team. The successful candidates will be responsible for the certification, maintenance, inspection, and repair of our fleet to ensure the highest standards of safety, airworthiness, and regulatory compliance. This is a hands-on role that involves working in both line and base maintenance environments.

Key Responsibilities

- Perform scheduled and unscheduled maintenance on ATR 72 and DHC-6 aircraft in accordance with regulatory and company procedures.
- Certify aircraft maintenance within the scope of company authorisations and CAA Part-145 regulations.
- Troubleshoot and rectify defects and perform component replacements as required.
- Complete all documentation and maintenance records accurately and in a timely manner, ensuring full traceability.
- Supervise and mentor unlicensed engineers and apprentices, ensuring compliance with safety and quality standards.
- Liaise with Part M, Technical Records, and Logistics to ensure effective maintenance planning and parts availability.
- Assist in aircraft movements, towing, and hangar organisation.
- Participate in AOG recovery activities as required.

- Maintain a safe and compliant working environment by adhering to health, safety, and environmental policies.
 - Report and escalate any technical, procedural, or safety issues to the relevant supervisor or management.
 - Undertake additional duties or training as requested by Head of Maintenance.
-

Preferred Qualifications and Experience

- Hold a valid UK CAA A, B1.1 (Turboprop/Jet) or B2 licence.
 - Type rating on the ATR 72-212A (600) and/or DHC-6 (Type rating courses may be offered to suitable candidates).
 - Ability to work under pressure and to tight deadlines.
 - Strong written and verbal communication skills.
 - Right to work in the UK
 - Full UK driving licence
-

Desirable Skills and Attributes

- Human Factors, Fuel Tank Safety, and EWIS awareness.
 - Flexible, team-oriented approach with a commitment to safety and on time performance.
 - Ability to certify work within the scope of company approvals.
-

Working Conditions

- Option 1 - Based in Guernsey, 4 on 4 off, day shifts, line and hangar work.
 - Option 2 – Based in UK with the potential for flexible shift patterns for working in Guernsey
-

What We Offer

- Competitive salary and shift allowance.
- Pension scheme and private medical insurance.
- Relocation assistance (where applicable).
- Training and support to obtain additional type ratings.
- Opportunities for progression within a growing and respected airline.
- A unique opportunity to live and work in the Channel Islands or to commute to Guernsey from the UK
